Subject: Tega Cay Water

We know that the lift stations have been improved, the miles of pipes have allegedly been smoked and cleaned, and that TCWS has been doing what it should have been doing all along.

Now we hear they will be asking for a huge rate increase.

We are a network of citizens trying to protect each other from sewer spills into our homes and the lake.

Frankly, we have NO idea what is going on in our antiquated pipes. It all looks great, but is it? We can only hope that we will have clean water, efficient sewers and clean discharge into the lake in the future.

Obviously, we do NOT trust TCWS as they have so often deceived us with rate increases and shoddy work.

Please consider this email as my protest against a rate hike.

Thank you,
Joyce Clark
